

**BONUS BASMATI**  
Baltic Sea Maritime Spatial Planning  
for Sustainable Ecosystem Services

**UNIVERSITY  
OF TURKU**

# Maritime Spatial Planning processes in Baltic Sea countries

## PhD course (5 ECTS)

### May 6-8 2019 Turku, Finland

#### Course content

The University of Turku and the BONUS BASMATI project jointly arrange a PhD level course focusing on the evaluation of the ongoing national and international maritime spatial planning (MSP) initiatives, as well as on the methods and tools related to monitoring and evaluation of maritime spatial plans. Emphasis will be on the similarities and differences among the member states' approaches in fulfilling the requirements set by the MSP directive, and the overall progress within the Baltic Sea region at the moment.

The course will consist of:

- a pre-reading exercise with a written report
- lectures and workshops by MSP experts from several Baltic Sea countries
- practical exercises
- a written final report.

#### Practical details

**Venue:** Monday & Tuesday: University of Turku, Natura building. Wednesday: Onboard day cruise Turku-Mariehamn-Turku.

**Costs:** No course fee. Travel and accommodation at own cost. Lunches free of charge. Wednesday ferry tickets free of charge.

**Student selection:** Max. 12 students

**Grading:** Pass/fail (course certificate provided)
